

EARLY CAREERS

#edfearlycareers

Do you want to gain real hands-on business experience in an exciting and Net Zero focused company? If so, an Industrial Placement is perfect for you!

Industrial Placement

An Industrial Placement offers engaging and meaningful work that'll enrich your studies during your gap or sandwich year. We offer paid **12-month** Industrial Placements to students studying for a degree at university. Our recruitment cycle for industrial placements starts in the winter, with selection activities ending by April; successful candidates begin in September.

Where you'll work:

We offer placements in all areas of the company and in all our Business Units. These include opportunities in our Generation business unit and different roles on our stations, Nuclear New Build such as **Hinkley Point C**, Nuclear Decommissioning and also in our Corporate and Customer Teams.

What you'll need to apply:

- A degree minimum of **2:2** (predicted grades)
- Self-motivation with a desire to learn and take on new opportunities
- Willingness to take ownership of your self development
- The ability to suggest new ideas and perspectives while working as part of a team

Your benefits:

- Competitive salary
- 25 days' annual leave
- Flexible benefits package
- Wellbeing and support services
- Integrated Life Skills programme
- Technical and soft skills training
- Business and commercial awareness
- An EC lead dedicated to your development

Where an Industrial Placement can lead:

If you excel on your Industrial Placement and want to join one of our many graduate programmes, you'll be fast tracked straight through to our assessment centre.
