

EARLY CAREERS

#edfearlycareers

Are you interested in working as part of EDF Renewables on one of our wind farms? If so, join our Wind Turbine Maintenance and Operations Engineering Technician training programme?

Renewables Wind Turbine Maintenance Operations Engineering Technician Apprenticeship

We offer a **three and a half-year** programme that focuses on the hands-on skills required to maintain our wind turbines. When you're not at college, you'll be based at a service centre.

Where you'll work:

- Your first two years is based at the **Tyne Coast College**. Training is delivered through a mixture of classroom and workshop sessions. Accommodation will be covered in your first two years if you don't live locally to Tyne Coast College, including a number of paid return journeys home
- Your final year and a half is based at your EDF Location

What you'll need to apply:

- **Five GCSEs at Grade C or above** (or Grade 4 and above in the new GCSE grading structure), **National 5 or equivalent**, including Maths, English and two science or technical subjects
- A talent and passion for practical subjects and activities
- The ability to work independently and in teams, and can balance the responsibilities between study and work
- The desire to learn and develop your skills, with a particular focus on hand skills and practical skills
- Willingness to relocate as required

Your benefits:

- Competitive salary
- Accommodation covered in your first two years if you do not live locally to Tyne Coast College, including a number of paid return journeys home
- 25 days' annual leave
- Flexible benefits package
- Wellbeing and support services
- Integrated Life Skills programme
- Outward Bound programme - team building excursion prior to starting in September
- An Early Careers Programme Lead dedicated to your programme and personal development
